

I LOVE listening to K-Love. I was introduced to K-Love when they began broadcasting on 104.3 in Cincinnati 4 years ago. I like having 3 K-Love stations near me in SW OH (also Wilmington, Dayton) because I can adjust my radio tuner with the winds of reception, and then all the way to Columbus and Mansfield, when I travel the state up north. I may end up moving soon. If I don't move closer to my own family, I hope the city has K-Love signals! It will be familiar sound and voices in a strange area.

Although it does not contain the commercial interruptions of local radio, it does program a free-to-the-public "community activities board", which is all I care to know about anyway. Other stations feel the need to market the fact that they have "non-stop" music for 20, 40, minutes without corporate commercials. K-Love doesn't need any of that! They also have the mainstream Contemporary Christian program mix that I prefer.

If K-Love were kicked off the air, 104.3, 96.9, and 102.3 FMs would sound just like everybody else - loaded with commercials and perhaps tasteless humor that cuts people down most of the time, instead of building up their spirits AND informing them of what's important to them. This world is full of negativity - hurt, shame, or whatever these days, it seems. Why do we need one more voice making it worse? K-Love is a light in darkness.

I was listening to light rock before I felt the need to switch to someone just as enjoyable, but also a LOT more DEEPLY nourishing right down to the SOUL! FINALLY! Eventually, I experienced my own time of healing after a year or so. K-Love helped.

My youngest child was introduced to God in my womb, because I listen to K-Love in my car and love to sing.

I want my kids listening to proper values in song, and clean language in their entertainment. I know other people in my area have similar feelings by noticing the station ID stickers on the back of their cars (and I see more than I realize sometimes.) Even if another station has low-key humor, whose to say that the intermittent corporate-commercial humor won't have a trace of the opposite? K-Love is a friend to families.

We need to restore dignity, hope and healing to this nation. K-Love is a leader in that effort.

Thank you for your graciousness in providing this opportunity for us K-Love listeners to defend what we feel is right.
